

GLIDECAM 2000/4000 Pro

The Glidecam 2000/4000 Pro is a lightweight, hand-held, camcorder stabilizing system designed for compact cameras weighing up to 2,7 Kg.
(Glidecam 4000 Pro from 1,8 Kg to 4,5 Kg)

The Glidecam 2000/4000 Pro is newly designed and now has a no-tools telescoping center post, a sleek and lighter base which allows you to quickly attach a dynamically adjustable counterweight disks, a foam handle grip, a lighter gimbal with a more compact bearing assembly and a new yoke design.
