The SUB-BAG is the perfect solution for carrying whatever is needed for field production. Grasp your stuff - batteries, cables, cassettes and personal gear, throw in the bag, and go! The innovative diagonal zipper facilitates quick opening and closing while creating a 180° approach to the interior. The 2 Delrin-rod reinforced arcs maintain the shape of the SUB-BAG. The bottom and sides are padded and reinforced too. Four roomy external pockets will carry specifically designated items, but will stay flat and out of the way, when empty. Ample pockets and Modi-Vers enable you to organize the items inside.
