DVCPRO Studio VTR (525)

## New DVCPRO Editing VTR with Jog/Shuttle Control and Optional IEEE1394 Interface

The AJ-SD755 extends the legacy of the DVCPRO VTR, today's world standard in broadcast news and studio operations. Optimizing DVCPRO's exceptional balance of image quality, cost, and reliability, the AJ-SD755 meets contemporary broadcast and production needs with features like DV/DV CAM playback, extensive front-panel editing controls, and optional IEEE 1394, SDI, and AES/EBU digital interfaces. The AJ-SD755 also surpasses many previous DVCPRO models in terms of light weight, low power consumption, and high cost-performance value.

# AJ-SD755 DVCPRO Studio VTR

## Standard DVCPRO Quality

- Standard DVCPRO (25 Mbps) format records up to 184 minutes of digital component video and 2-channel digital audio
- Plays DV (Standard/Mini) and DVCAM (S/L) tapes
- Auto format detection of DVCPRO, DV or DVCAM, in playback
- Records onto DV tape (Standard/Mini) in DV format (with 2-channel audio)

## Extensive Front Control Panel

- Jog & shuttle search dial with illumination
- Forward and reverse at  $-0.43$  to  $+0.43$ ,  $+0.5$ ,  $+0.75\times$  slow motion in DVCPRO mode.
- Digital audio monitoring during jog operation
- Frame-accurate, tape-to-tape editing

## IEEE1394, SDI and AES/EBU Digital Interfaces

- IEEE1394 digital interface available with the optional AJ-YAD955G board for lossless dubbing and PC-based editing
- SDI (serial digital interface) input and output available with optional boards for connection with other digital broadcast equipment
- Standard-equipped AES/EBU digital audio inputs and outputs
- Standard-equipped analog video and audio inputs

## Light Weight, Low Power Consumption, and Versatile Control

- Weighs only about 35.2 lbs (16 kg), 4RU size
- Low power consumption of 120 W
- Remote maintenance via an external PC
- Equipped with RS-422A and RS-232C remote terminals

Weight and dimensions shown are approximate. Specifications are subject to change without notice.
