# Protective Carrying Solutions

Including  
New Arrivals  
July 2004

KATA designs, develops and manufactures quality, state of the art protection solutions, packaging solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fits the case, the case must also fit the user!

# Contents

For the past 15 years KATA has been creating high-end products for professionals around the world. KATA established its reputation by outfitting Military and Law Enforcement Special Units with field cases, tactical and protective vests, carrying systems and backpacks. Tough, durable and remarkably lightweight, KATA products are designed to withstand rough treatment and harsh conditions.

For the Professional Video Industry KATA has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported in over 40 countries by a network of dealers and distributors.

For complete background and KATA's history see: [www.kata-bags.com](http://www.kata-bags.com)

## ISO-9000

KATA complies with the rigorous requirements of ISO-9000 for quality management system.

The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 90 countries.

# New Products

KATA's Global Digital Collection (GDC) is a collection created for the Professional Digital Photographer and Digital Videographer. It is comprised of protective carrying solutions designed for their special needs and requirements and for the sensitive and expensive digital equipment they carry. The GDC incorporates KATA's latest development - the unique TST (Thermo-Shield-Technology [see page 5](#)). It continues in KATA's tradition of an ergonomic structure, stylish design and meticulous material selection.

# KATA'S TST

# Thermo Shield Technology

TST (Thermo-Shield-Technology) is a state of the art solution that gives the perfect protection for the digital equipment while creating an extremely light product. The outer surface **1** of the TST is thermo-formed in a protective “rib-shape” construction (Patent Pend.). It is made of Super Nylon® - a Mil-Std, double cord, water and dust proof, high tenacity and abrasion-resistance fabric **2**. Underneath, a cross-linked, closed cell PE+EVA shield **3** is impact and shock protective while providing a comprehensive insulation against cold, heat and moisture. The internal padding **4** provides the necessary cushioning and vibration reduction. The lining is KATA’s unique Yelloop material **5** which is fabricated especially for the anti-scratch and anti-static requirements while allowing divider attachment for internal partitioning.

# Unique Features

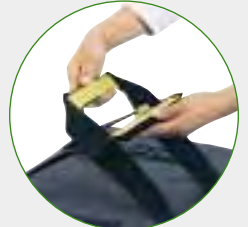

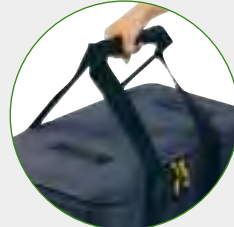

## Carrying Solutions

KATA designed and patented numerous innovations to allow greater ease and efficiency when carrying and operating cameras, lighting, sound gear, tripods and other equipment.

### "Click" Interlocking Handles

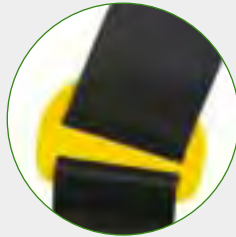

Our patented CLICK handles have been designed and field-tested for sure grip and optimal comfort. The unique engineering of shape and thermo-rubber pads ergonomically fit your hand. Just "click" the two parts together and you are ready to go!

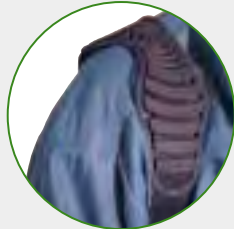

### DPB

#### Dual-Purpose Buckle (Registered Design)

The shoulder strap attaches to the bag via this rugged yet lightweight buckle, which accepts either a quick-release hook or the strap itself. Either option ensures that the strap will cross the shoulder at the optimal ergonomic angle to provide comfort and stability.

### Shoulder Straps

APSS Advanced Padded Shoulder Strap (Patented)  
(see page 27)

NSS Non-Slip Shoulder Strap (Patented)  
(see page 27)

BSS "B" shaped shoulder strap

SPAD Thermoplastic padded shoulder strap

STRP Adjustable shoulder strap

### Insertrolley

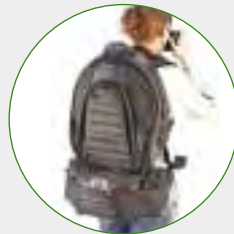

NEW Revolutionary Modular Trolley System with extendable wheels to better stabilize large cases (Patent Pend) (see page 27).

### EPH

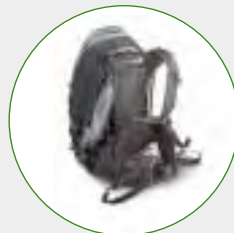

#### Ergonomic Photo System

A modular system that allows you to set the required configuration by attaching 1-3 KATA cases together. (See Page 13)

### Omega

Carrying system concealment compartment (See page 16)

## Protection Solutions

Our mission is to offer the maximum protection with the most ergonomic, lightweight design possible. We want our products to be more than just a protective covering. We want our products to work with you to help you do your job better.

### Pinakata Corners

To lessen the wear and tear, Pinakata Corners reinforce and protect these vulnerable areas.

### Toblerone

Made from synthetic thermo-rubber, this uniquely designed feature absorbs shocks and protects the case from abrasion, dirt, mud and standing water.

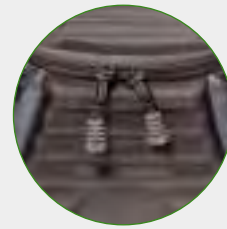

### Double sided Elements Cover

An emergency Elements Cover is included in many of our products to protect your case and equipment in inclement weather: black side out in rain or snow, and in sun reverse to silver for heat reflection.

### TST

**Thermo Shield Technology**  
KATA's state of the art protection combination for digital equipment. (see page 4-5)

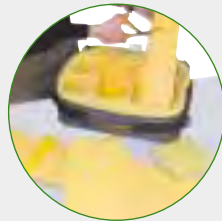

## Additional Innovative Solutions

### Modi-Vers System

Most of our products are constructed with the special "Yelloop" interior (see page 23). Included dividers enable you to create compartments inside the case that meet your exact requirements. If needed, Additional Modi-Vers kits are available (see page 27).

### On Board

These bags meet the strict new airline regulations for carry-on luggage size. Due to constantly changing airline regulations, please check with your carrier prior to departure.

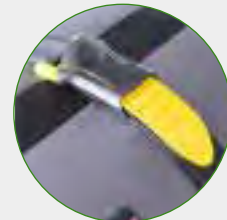

### Filter Sleeve

A designated connector/ compartment allows you to secure as many KATA Filter Sleeves as necessary in your case. (see page 27)

### Tail Trap Buckle

The TT Buckle is ergonomically designed for comfort and ease of use. When you push the "Tail" into the "Trap" you can adjust the closing of the bag or vest as tight or loose as required. The buckle locks closed no matter how tight you choose to make it. The arched shape conforms to the body and the bag it serves. Simply push back the trap with your thumb to open.

### Media Kit

A Digital organizer for memory cards and spare batteries.

# KATA'S Microclimate

Sun, rain, dust, heat and extreme cold don't stop you from going out and shooting but they might harm your equipment. KATA creates the perfect microclimate allowing you to shoot with confidence knowing that your sensitive gear is safe. Kata's waterproof materials, zipper covers, internal zipper wall and double sided Elements Cover all make sure that your camera will work properly, even in the harshest climatic conditions.

## C-52 Camera Case; C-54 Camera Case

The stylish C-52 and C-54 are unique, TST protected, mini camera cases. The main compartment can accommodate a Digital camera, 4 spare batteries and 2 memory cards (in the elastic pop-out media kit). In the C-54, back and top 3D Air-Mesh pockets will store accessories like filters, cleaning kit, tools and more. Carried on the belt or with the adjustable shoulder strap, the C-52 and C-54 will make sure you have it all close at hand. The cases provide double protection from moisture and dust by the folded zipper and unique "internal wall". In rain, use the elements' cover, black side out, and in sun reverse to silver for heat reflection.

Name: C-52 Order Code: KT C-52

Name: C-54 Order Code: KT C-54

Weight	0.30 lbs		0.135 kg	

C-54

C-52

## C-56 Camera Case; C-58 Camera Case

The C-56 and C-58 are identical in all, but size. They are designed with style, ergonomically engineered and TST protected. By using the dividers, the main compartment can accommodate a Digital / SLR camera with zoom lens or a camcorder, with additional lenses, flash-unit, charger and other equipment. 5 Padded internal and external pockets and a separate media kit will hold extra gear. Carrying options include Elasto-Rubber handle, SPAD shoulder strap and back loops for a waist belt. The cases' folded zipper and unique "internal wall" provides double protection from moisture and dust. In rain, use the elements' cover, black side out, and in sun reverse to silver for heat reflection.

## P-32 Pouch; P-34 Pouch

The P-32 and P-34 provide complete TST protection and can be carried either on your belt, in your satchel or as a part of a transporting organizing system. These Mini Cases feature multipurpose configuration options:

In the P-32 you can store a miniature digital camera; 2 Mini DV tapes; 4 media memory cards + 4 AA batteries and many more options.

The P-34 will hold 4 Mini DV tapes; a small digital camera; Pocket camcorder; charger and cables; a PDA and many more. The pull-out Media-Kits can be cut away if needed.

Elastic bands will help hold contents in place while the two adjustable side-connectors allow you to set the opening size according to carrying method and equipment.

Name: P-32 Order Code: KT P-32

Name: P-34 Order Code: KT P-34

P-32	External Max. Size		Internal Main Compartment	
Length	3.5"	9 cm	2.8"	7 cm
Width	1.4"	3.5 cm	1.2"	3 cm
Height	4.7"	12 cm	3.7"	9.5 cm
Weight	0.2 lbs 0.075 kg			

P-34	External Max. Size		Internal Main Compartment	
Length	4.5"	11.5 cm	3.7"	9.5 cm
Width	2.8"	7 cm	2.4"	6 cm
Height	6.7"	17 cm	5.5"	14 cm
Weight	0.3 lbs 0.135 kg			

## P-36 Pouch

The multipurpose P-36 features a peripheral TST protection and 2 opening methods: top auto-flip-back lid and full peripheral zipper access.

The P-36 can be carried conveniently either as an individual pouch on your belt, threaded through your shoulder bag strap or as a part of a transporting organizing system.

This double compartment case can hold 2 pro-digital battery packs, a small digital camera, or various accessories like cables and charger.

The two separate compartments have internal pockets that will accommodate media cards and additional equipment.

Name: P-36 Order Code: KT P-36

P-36	External Max. Size		Internal Main Compartment	
Length	3.9"	10 cm	3.1"	8 cm
Width	2.6"	6.5 cm	2"	5 cm
Height	7.1"	18 cm	6.1"	15.5 cm
Weight	0.3 lbs 0.135 kg			

## KATA's Transporting Organizing System

Organizing your digital photo and video gear is a challenge.

In addition to the need to have it all secured, well protected and ready for use, you need it to be safely transported and easily carried. Often you'll need to open the case and have your gear inspected by strangers.

KATA's multipurpose series of mini cases (especially the P-32, 34; 36; 38 and the Egg-2001, 2002) help you overcome this challenge.

## P-38 Pouch

The P-38 is functional, versatile and designed to meet various operating and carrying scenarios. It provides a full TST protection.

Carry the P-38 by its handle, adjustable shoulder strap, or as rigid pouch for storing sensitive equipment in transport. This case can hold a digital Pro SLR body, a medium size digital camera, or a small Mini DV camcorder.

Two separate compartments share volume according to content and allow for additional equipment in mesh pockets and elastic loops and sleeves.

Unique opening methods include top auto-flip-back lid and full peripheral zipper access.

Name: P-38 Order Code: KT P-38

Weight	0.6 lbs 0.29 kg			

# Egg-2001; Egg-2002

The EGG-2001 and EGG-2002 are uniquely designed cases that offer full TST protection for Digital cameras as well as for pocket video camcorders. The TST shell houses a soft egg-crate foam interior to protect your camera. The pull-out Media Kit holds extra batteries and smart media cards and the detachable elastic sides allow you to set the opening of the case. Carrying options include an adjustable shoulder strap and hip belt connectors.

# Exo Pouches

A pair of specially designed additional pouches for either the Exo-11 or Exo-33 (see page 20). These pouches are ideal for extra accessories like filters, batteries, taps, media cards, cables and personal effects.

Name: Exo Pouches Order Code: KT VA-EXO-P

Exo-Pouches	External Max. Size		Internal Main Compartment	
	Length	2.4"	6 cm	2.0"
Width	5.1"	13 cm	4.7"	12 cm
Height	7.1"	18 cm	6.3"	16 cm
Weight	0.4 lbs		0.2 kg	

## S-308 Sling Case Carrier

The S-308 is a multifunctional, shooting-gear-carrier. It can be used individually, with its own expandable pocket, or as a platform for one of KATA's cases. Part of the main compartment features a connecting system to the additional case (See pictures).

The S-308 enables you to change the carrying position by shifting and turning it: camera case in front, for quick access, on the side as a usual shoulder bag or on your back for optimal weight distribution. A well-cushioned adjustable shoulder pad makes sure the S-308 is comfortable in all positions and fits sizes S to XL. Additional pockets allow you to keep valuables close to your body, in the concealed compartment, and accessories like a cell phone, PDA and wallet in the designated pouches.

Name: S-308 Order Code: KT S-308

S-308	External Max. Size		Internal Main Compartment	
	Length	13.8"	35 cm	6.7"
Width	2.0"	5 cm	1.2"	3 cm

Weight	4.0 lbs		0.8 kg	

S-308 With H-12

S-308

FITS DIGITAL VIDEO

## S-312 Sling

The S-312 incorporates TST protection and is ergonomically designed to carry a small digital camera or pocket camcorder.

The unique diagonal configuration offers an alternative to traditional carrying methods and fits sizes S to XL.

Camera can be placed in either of the 2 central pockets.

Concealed compartment holds valuables close to your body. Other ergonomically designed pockets will hold cell-phone, PDA, pen, media cards, spare batteries, keys and more.

Name: S-312 Order Code: KT S-312

S-312	External Max. Size		Internal Main Compartment	
	Length	13.8"	35 cm	5.1"

FITS DIGITAL VIDEO

(SEE PAGE 27-28)

## T-212 Torso-Pack

KATA's T-212 is uniquely designed to keep your Digital / SLR or Camcorder in quick-draw position, while TST protected.

The T-212 enables frontal carrying and quick draw without weighing on your neck.

The shape of the expandable main compartment adjusts to fit your gear and can be divided into two sections.

Additional large pockets will store all necessary accessories.

The T-212 is the central element of KATA's EPH System. It can be used on its own (with the weight distributing back-mesh piece) or attached to the W-92 Waist Pack as well as one of the backpacks: R-102, Teddy-2, Panda or Grizzly.

Name: T-212 Order Code: KT T-212

T-212	External Max. Size		Internal Main Compartment	
	Length	15.7"	40 cm	11.8"

FITS DIGITAL VIDEO

(SEE PAGE 27-28)

# KATA's EPH System

KATA's Ergonomic Photo (EPH) System is modular and versatile. The EPH System allows you to set the configuration required for the mission. You can attach 2 or 3 products that are "EPH System Compatible" into a set: The W-92 (waist-pack) together with the R-102 (rucksack) will create a big backpack. The T-212 (torso-pack) and the Teddy-2 (backpack) will give a combination that has high storage volume and optimal weight distribution. These are only two of more than 15 different possible combinations.

**Panda**  
See Page 16

**W-92**  
See Page 14

**T-212**  
See Page 12

## W-92 Waist Pack

The innovative waist-pack W-92 incorporates TST protection and is designed for all Digital / SLR systems or mini DV sets. It is comfortably shaped to fit numerous operating scenarios:

Frontal carrying for quick access while opening the cover away from your body;  
Rear carrying for best weight distribution;

Carried by the thermo-rubber handle;

Carrying as a shoulder bag with the SPAD strap hooked to the 2 D-rings (the waist belt can be tucked away or buckled for extra stability);

Main compartment can be arranged to fit your gear by using the divider system (if necessary extra Modi-Vers Kit is available, see page 27).

A Pro digital SLR with 2-4 lenses and additional gear like flash-unit, hood, charger, power supply, etc. will fit in this roomy pack. The front divider enables internal and external approach to the TST pocket.

2 padded expandable pouches on both sides accommodate lenses or any other item you would like to have close at hand.

Additional pockets in the lid, front TST and two sides of the W-92 will store all required accessories.

Full protection on the main zipper and KATA's unique cover makes sure your sensitive equipment is well protected from the elements.

Weight	1.48 lbs		0.67 kg	

DV

FITS DIGITAL VIDEO (SEE PAGE 27-28)

## H-12 Holster

The revolutionary holster H-12 gives the extra TST protection while allowing for quick access to your Digital / SLR and zoom lens set. The camera can be held in place by looping the divider around the lens vertically or positioning it horizontally and creating a bottom compartment for an additional lens or flash-unit. The media kit will hold batteries and memory cards. 5 padded accessory pockets (inside and outside) will store filters, cleaning kit, light meter, cell-phone, PDA and many more.

A handle, a SPAD shoulder strap and a 3D-mesh loop for waist belt, allows for comfortable carrying of the H-12.

The H-12 features double closure system - a 2-slider zipper and a one-hand operating buckle.

In addition to the rain-protected lid the H-12 is equipped with KATA's unique elements cover: black side out in rain, and in sun reverse to silver for heat reflection. When wet or dirty, store the cover in its mesh pouch and hang out to dry.

# New Arrivals July 2004

# MC-60 Shoulder Bag

GDC MULTI CASE for digital SLR or medium format cameras with laptop and many accessories.

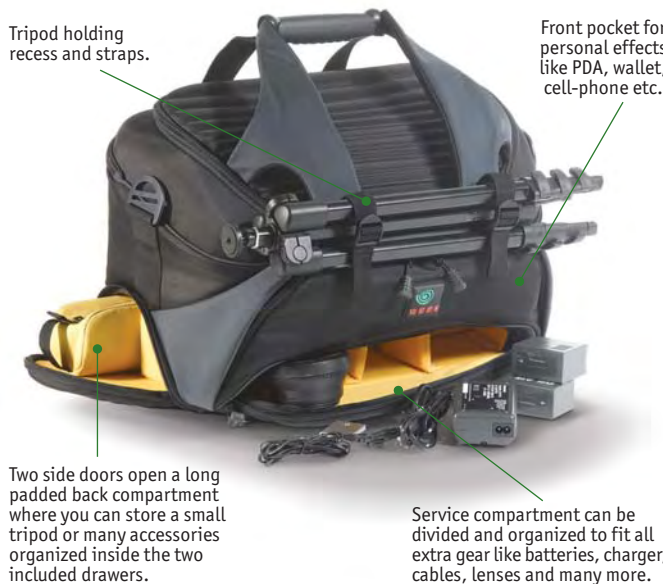

The MC-60 Multi-Case is the perfect companion for the genuine field digital photographer. It combines all you'll need in one case:

It offers the option of carrying several camera bodies with a variety of additional lenses (mounted or separate), combined with a laptop, professional and personal accessories - holding each piece of equipment and gear in its own designated compartment;

Featuring a level of protection you haven't seen before, provided by the TST and the well padded sides of the bag;

Multiple and ergonomically perfected carrying possibilities - The B shaped shoulder strap, the Click handle and the Insertrolley option.

All this in one compact case that can be carried on board a plane and stored in the overhead compartment.

MC-60 with Insertrolley

6 openings allow for separate access to camera, laptop and accessories.

2 sets of Modi-Vers to allow for partitioning according to your preference

Name: MC-60 Order Code: KT MC-60

MC-60	External Max. Size		Internal Main Compartment	
	Length	Width	Height	Weight
	20"	12.2"	19.3"	5.5 lbs
	51 cm	31 cm	49 cm	2.5 kg
		8.3"	21 cm	
		10.6"	27 cm	

## Exo-7; Exo-12 Shoulder Bags

EXO-7 and EXO-12 are small shoulder bags for a variety of digital cameras; The EXO-12 is a new TST upgrade version of the EXO-11 (see page 20,28).

It fits a variety of digital equipment from a medium sized SLR with many accessories up to a Large SLR with the essentials.

The EXO-7 is a new smaller version of the same case which accommodates a digital SLR with mounted lens up to a 80 x 200 and accessories.

In both, a back "service door" opens a lower compartment that can hold a charger, batteries, and cables. If needed, the lower divider can be removed to create a larger main compartment.

Specially designed pouches are included and can be attached or removed from both ends of the bag.

The EXO cases come with an attachment system for a table top tripod.

The interior can be customized with Modi-Vers and Filter Sleeves (See page 27).

A BSS Strap and a belt loop are included

## Panda-402

KATA's PANDA-402 is the upgraded version of the well known Panda (see page 16,29), which now features a level of protection you haven't seen before; Kata's new TST now safeguards the camera compartment and the bottom of the case.

In the upper compartment, the case easily accommodates 1-2 Digital bodies with 2-3 lenses or a DV camcorder, and in the lower compartment a laptop with its accessories.

A dual zipper approach enables separate access to each compartment or access to all your equipment at once. Ample external and internal pockets provide storage solutions for a range of accessories and personal effects.

Using the Modi-Vers divider system you can customize the interior to meet your exact requirements.

A tripod can be carried on the Panda's side or in the central pocket.

The PANDA-402 is the ultimate solution for the needs of digital field production work; It meets the strict new airline regulations for carry-on bag size\*.

This backpack can be turned into a shoulder case by utilizing the OMEGA concealment system (see page 16), and the included BSS shoulder strap, or can be wheeled along on the Insertrolley (see page 27).

\*Due to constantly changing airline regulations, please check with your carrier prior to departure

PANDA with Insertrolley

# BP-502 Backpack

The BP-502 GDC backpack is designed for pro digital and analog SLR cameras with zoom or tele lenses, laptop and many accessories. Thermo Shield Technology (TST) combined with reinforced plastic boards and thick closed cell padding create this lightweight, ultra-protective case. The main compartment features a unique internal dividing system, which allows for a diversity of equipment setups, while ensuring it is easily accessible. And using the Modi-Vers divider system, you can customize the interior to meet your exact requirements (see page 27). The camera is placed in the center thus easily on hand for easy access via the small top opening flap.

Related equipment is stored around the main piece, and secured in place by flap doors, that can be folded away when needed. Additional internal and external pockets provide a variety of storage options for both large and small objects. Peripheral zipper opening enables full access to all equipment at once when packing or unpacking and when working in the field. A flat rear compartment is designed to securely hold and protect a laptop in a padded sling and store all the related accessories. Carrying options offer an advanced adjustable and ergonomically designed harness system, which can be concealed (see page 16), Insertrolley connection sleeve, and injected grip handle.

The BP-502 includes a double-sided elements cover, a tripod sling and securing straps, and camera straps which are connected to the harness but can be removed to create an independent camera carrying strap.

# R-102 Rucksack

The compact R-102 is designed to hold a Digital / SLR body with up to 300mm lens attached, an extra body, 4-5 lenses or a mini DV camcorder. Additional accessories, like flash-unit, filters, charger, cables and personal essentials can be stored in the spacious arched lid compartment, the 2 outside pockets and the central mesh/vinyl pocket.

The special design gives quick, separate access to the camera in the central compartment, while the rest of the equipment surrounding it remains secure. The R-102's ergonomic harness includes a unique cushioning and shock absorbing system, which allows for optimal ventilation, weight distribution and 5-point adjustment mechanism.

The R-102 includes a well-padded dividing set, which allows you to organize it to fit your requirements. If needed, extra Modi-Vers-Kit is available (see page 27). In addition, the R-102 includes a TST tripod holder with its connecting V shape device and an upper adjustable strap (the tripod can be carried on the central part of the Rucksack or on one of the sides)

Especially designed Camera Straps can be attached to the D rings on the harness and will take the camera load off your neck (they can be turned into a regular camera strap by connecting to the provided extender).

A detachable hip belt can be connected to the bottom back loops that are designated to attach the R-102 to KATA's EPH system.

Full protection on the main zipper and KATA's unique cover make sure your sensitive equipment is well protected from the elements.

Weight	2.8 lbs		1.25 kg	

FITS DIGITAL VIDEO (SEE PAGE 27-28)

# Teddy-2

Teddy-2 is an ergonomically designed camera backpack that offers a dual zipper approach: easy access to each compartment or access to all your equipment at once.

It has two roomy, padded compartments, which can be customized to your exact requirements, thanks to our Modi-Vers divider system. They will hold 2-3 camera bodies and up to 8 lenses, flash, battery packs and more.

Alternatively turn the two compartments into one and carry a digital pro body with a tele-lens (up to 400 mm/f2.8) and more lenses and accessories. Mesh-vinyl pockets are located internally on the two lids for media card, filters and cables. An additional exterior pocket will store your personal effects like a cell phone, PDA etc.

A tripod may be connected to the Teddy-2 on either sides or the center. The Teddy-2 is equipped with an advanced harness system: a pair of ergonomically shaped shoulder straps; a detachable, adjustable hip belt; external Delrin rod that arcs around the outer edge of the pack, and shifting the weight from your shoulders to your hips.

The included Elements-Cover and the Omega system, complete the Teddy's configuration as the ultimate companion for the adventurous photographer.

Name: Teddy-2 Order Code: KT VA-500-2

Teddy-2	External Max. Size		Internal Main Compartment	
Length	13"	33 cm	11.8"	30 cm
Width	9.1"	23 cm	7.9"	20 cm
Height	20.9"	53 cm	19.7"	50 cm
Weight		4.2 lbs		1.9 kg

# Panda

KATA's Panda is the perfect solution for the needs of field production Digital photography and videography (See Page 29).

It meets the strict new airline regulations for carry-on bag size, and can be used as a backpack as a shoulder bag or as a trolley case.

The case easily accommodates and protects 1-2 Digital bodies and 2-3 lenses or a DV camcorder, in the upper compartment, and laptop with accessories, in the lower compartment.

Dual zipper approach enables separate accesses to each compartment or access to all your equipment at once.

Ample external and internal pockets provide storage solutions for a range of accessories and personal effects.

A tripod can be carried on the Panda's side or in the central pocket.

Name: Panda Order Code: KT VE-401

Panda	External Max. Size		Internal Main Compartment	
Length	13"	33 cm	15"	38 cm
Width	9.1"	23 cm	6.3"	16 cm
Height	21.7"	55 cm	19.7"	50 cm
Weight		4.2 lbs		1.9 kg

## Omega

Many cases come with a carrying system concealment unit, which gives you rapid access to the harness and waist belt and allows easy repackaging when needed. The harness itself is ergonomically designed to sit comfortably on your shoulders. It has special padding and a zigzag shape to provide optimal weight distribution. A waist belt is provided for more stability and in the larger backpacks there's a fully padded 6 point, adjustable detachable hip belt.

FITS DIGITAL VIDEO (SEE PAGE 27-28)

## E-702 Elements Cover; E-704 Lens Sleeve Kit

The E-702 lets you continue shooting in harsh weather conditions. It slips quickly over the camera and is easily secured with the adjusters and pull-cords.

Two roomy sleeves provide hand access to all camera and lens controls, and the transparent TPU enables easy monitoring all the time.

An adjustable PP hood fits a variety of lens diameters. A full-length double zipper enables complete closure when hand held or on a tripod. The E-702 fits all types of pro Digital / SLR cameras with or without booster or grip.

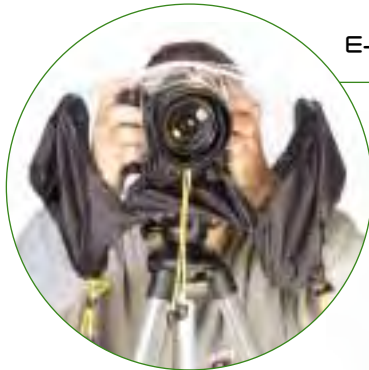

The E-704 consists of 2 Lens Sleeves, up to 350 and 650mm long, and 1 Hand-Sleeve to access the lens or attaching a lens support.

The E-704 is designed to be attached to KATA's E-702, when shooting with extra long zoom or Tele lenses. Full-length closure along the bottom rim enable quick set-up, and seals tripod connection, while also providing an option to access the lens controls at any point. For sealed access, the Hand Sleeve can be connected wherever convenient. The PP hood can be adjusted to fit a variety of lens diameters.

## CRC-13; CRC-14

These Compact Rain Covers fit 35 mm cameras like the Digiflex, or medium format cameras with a digital back installed.

They allow you to continue shooting in harsh weather conditions: slip quickly over the camera and secure with the adjusters and pull-cords.

The closure along the bottom rim enables quick set-up and seals tripod connection, while also providing a hand held option.

The CRC-13 is the compact version while the CRC-14 is larger and fits longer lenses. These camera rain covers fit DV camcorders as well (See page 29)

CRC-13

# KATA's Product Performance

KATA's product is more than just a protective carrying case, it's an operating tool. Ergonomics doesn't end at the shape, weight, handle, shoulder strap or padding. It is also a quick draw for your camera, a sun hood on LCD screens, rain covering while shooting and when needed; the case sets up as a field working post.

# F-417 Field Laptop Case

The F-417 laptop case is designed for fieldwork, both a fully protective TST carrying solution, and a perfect workstation wherever you may be. Adjustable detachable hood will shade the LCD screen and elevation pads underneath the laptop provide extra cushioning and ventilation. A removable partition allows you to divide the main compartment to store a mouse, a charger or an extra drive. Numerous padded pockets and organizers will store CDs, floppy discs, PDA, cell phone, folders, papers and much more equipment. The F-417 features 3 carrying options: By hand with the patented Click handle, on your shoulder or using the Insertrolley feature.

F-417 with Insertrolli

Height	14.5"	34 cm	13.3"	34 cm
Weight	3.9 lbs		1.8 kg	

# Lab; Pab

The Lab is ideal for the digital photographer, videographer or executive, personal laptop case. It has a padded partition and many pockets for the laptop + accessories and additional compartment for folders. The bag's structure permits quick and easy storage and removal of the computer and all its accessories. The Pab with its adjustable padded partition holds a media projector. There is additional storing room and many pockets. The Lab and Pab can be carried and used separately, attached to each other or wheeled on KATA's Insertrolley.

# Camera Shoulder Bags

## Exo-11; Exo-33

The Exo-33 fits many DV camcorders (See page 28) or a pro digital SLR with its lens or zoom lens along with an extra body and 3-5 lenses. Creating a presentation kit is possible by storing a media projector in the Exo-33 and attaching KATA's Topic-10 (not shown) to accommodate a laptop.

The Exo-11 fits all smaller camcorders or a digital SLR with its lens attached, additional lens and flash.

A back "service door" opens a lower compartment that can hold accessories like chargers, batteries and more. Carry the cases on your shoulder, by their handles or use the belt loops in the Exo-11 or the Insertrolley option of the Exo-33.

FITS DIGITAL VIDEO (SEE PAGE 27-28)

## CCC-101; CCC-103

CCC- 101 and larger CCC- 103 are compact, padded cases designed to hold a digital SLR with a Tele-lens (compare model's internal dimensions to your kit with required configuration like, body + lens + hood). Additional lenses, flash, light meter or other accessories will fit in the remaining space, the additional long compartment or one of the pockets. Internal dividers are included and if needed a Modi-Vers Kit (See page 27) is available. A DV configuration is possible too (See Page 28). The CCC-101 and 103 lid is secured by a wide "hook & loop" fastener and a side release buckle. One puller allows for a quick full opening of the parallel zipper set. SPAD Shoulder Strap is included as well as KATA's padded Mesh-Grip handle.

Name: CCC-101 Order Code: KT VA-101

CCC-103

FITS DIGITAL VIDEO (SEE PAGE 27-28)

## Shell-03

The Shell-03 has a unique TST Clam Shell design which offers ultra protection. Using the Modi-Vers divider system, the case can easily be adjusted to fit your camera with related accessories. For preferred configuration please relate to the mentioned dimensions and to the recommendations specified above for CCC-103. An internal padded mesh pocket provides extra storage possibilities without compromising the protection of the camera. KATA's patented "Click" handle allows for quick closure as well as for comfortable carrying. The fully padded ergonomic shoulder strap (BSS) can be attached to the DPB directly or by its snap hooks, creating an optimal User-Case-Strap angle.

Name: Shell-03 Order Code: KT VA-2003

Height	9.1"	23 cm	7.9"	20 cm
Weight	2.0 lbs		0.9 kg	

FITS DIGITAL VIDEO (SEE PAGE 27-28)

## Nana-10

The perfect shoulder bag for the Digital pro-photographer on the go. Ergonomically designed to allow you to “shoot from the hip” without taking the case off your shoulder: Contoured shape for a closer to the body center of gravity; 2 DP Buckles ensure correct Case-Strap-Carrier angle; ergonomic Non-Slip Shoulder strap; opening away from the body by a quick release buckle; 3D hip pad with a concealed hip belt for additional support and weight distribution.

In the main compartment, the 3 large pockets, 4 flat pockets and the tying loops; the Nana-10 will store all you need: 1-2 digital SLR bodies, 2-4 lenses, flash, battery packs, filters, tripod, PDA and other photo and personal accessories.

Name: Nana-10 Order Code: KT VE-301-10

Nana-10	External Max. Size		Internal Main Compartment

Width	11.0"	28 cm	8.3"	21 cm
Height	9.1"	23 cm	7.9"	20 cm
Weight	4.0 lbs		1.8 kg	

## Banana-1; Banana-2

These professional photographer's roomy shoulder bags have a curved side that keeps the weight close to your body, making it easier to carry by their shoulder straps, unique “Click” handles or two side grips. Thick padding and reinforcing, with plastic boards and aluminum staves (Banana-2), protect your equipment and the Modi-Vers system enables customizing the bag to your specific needs. The main compartment and the external and internal pockets will store 2-3 digital SLR bodies with their lenses attached, 4-6 additional lenses and many more accessories, from the small media cards to a field tripod.

Name: Banana-1 Order Code: KT VE-301-1

Banana-1	External Max. Size		Internal Main Compartment

Height	12.2"	31 cm	10.6"	27 cm
Weight	7.3 lbs		3.3 kg	

## Maze-1; Maze-2

The maze is designed to withstand hard use in any environment. Thick cross-linked closed cell padding and rigid PP boards provide extra protection for your gear. One main compartment can be customized to fit a variety of equipment configuration, while the additional pockets help organize all required accessories. A digital SLR and 3-4 lenses will fit in the Maze-1 and twice the amount in the Maze-2 with additional equipment like flash, filters, batteries, media kits, light meter, tripod and many more. All of the equipment will be revealed and ready for use, once the main wraparound zipper is opened.

with Insertrolley

Maze-2

## Tripoaction-41; Tripoaction-42

The Tripoaction is the perfect case for medium size field tripods for photo and video. The case is available in two sizes to fit a variety of models with different heads. An extra wide, zippered opening extends the entire length for quick removal of the tripod. The case's profile is designed as a five sided tube that closes snugly around the tripod.

Name: Tripoaction-41 Order Code: KT VE-104-41 Name: Tripoaction-42 Order Code: KT VE-104-42

Tripoaction-41	External Max. Size		Internal Main Compartment	
Length	35.8"	91 cm	34.6"	88 cm
Width	8.5"	21.5 cm	7.7"	19.5 cm

Weight	2 lbs 0.9 kg			

Tripoaction-42	External Max. Size		Internal Main Compartment	
Length	43.7"	111 cm	42.5"	108 cm
Width	8.5"	21.5 cm	7.7"	19.5 cm
Height	9.3"	23.5 cm	7.7"	19.5 cm
Weight	2.4 lbs 1.1 kg			

## Triposoft-1; Triposoft-2

The Triposoft cases are Tripoaction's "big brothers". Also in two sizes these padded and rugged yet lightweight cases fit a variety of large field tripod's legs and different heads. 2 reinforced padded edges protect the sensitive head and leg tips. Carrying options are BSS shoulder strap, extra long interlocking handles and they are Insertrolley compatible.

Name: Triposoft-1 Order Code: KT VE-104-1 Name: Triposoft-2 Order Code: KT VE-104-2

Triposoft-1	External Max. Size		Internal Main Compartment	
Length	38.5"	98 cm	37.4"	95 cm
Width	10.4"	26.5 cm	9.6"	24.5 cm
Height	9.3"	23.5 cm	7.7"	19.5 cm
Weight	3.3 lbs 1.5 kg			

Triposoft-2	External Max. Size		Internal Main Compartment

Width	10.4"	26.5 cm	9.6"	24.5 cm
Height	9.3"	23.5 cm	7.7"	19.5 cm
Weight	3.5 lbs 1.6 kg			

## Triporigid-1; Triporigid-2

Triporigid offers a rigid protective carrying solution for large tripods with different heads. The Omega concealment backpack system helps you carry the bag on your back while leaving your hands free. Internal straps, close to your back, secure the tripod. The Triporigid is reinforced with aluminum staves and Toblerone shock absorbers.

Name: Triporigid-1 Order Code: KT VE-105-1 Name: Triporigid-2 Order Code: KT VE-105-2

Triporigid-1	External Max. Size		Internal Main Compartment	
Length	39.8"	101 cm	38.5"	98 cm

Width	10.6"	27 cm	9.8"	25 cm
Height	11.4"	29 cm	9.8"	25 cm
Weight	7.1 lbs 3.2 kg			

## Multilong-1

The Multilong is a roomy, multipurpose, padded case that is perfect for transporting a wide range of photo or video equipment from tripods to lighting kit. For the tripod, just remove the center Modi-Vers and you have a rigid tripod case with extra pockets. For lighting set up, see page 24. Insertrolley included.

Name: Multilong-1 Order Code: KT VE-102-1-R

Multilong-1	External Max. Size		Internal Main Compartment	
Length	41.3"	105 cm	38.6"	98 cm
Width	11"	28 cm	9.8"	25 cm
Height	11"	28 cm	9.8"	25 cm
Weight	7.3 lbs 3.1 kg			

A close-up photograph of the interior of a yellow KATA case. The case is lined with a bright yellow material called Yelloop. A black zipper pull is visible on the left side. In the center, there is a black, textured object, possibly a piece of equipment or a component, resting on the yellow lining. The background is slightly blurred, showing more of the case's interior and a black object on the right side.

# KATA's Yelloop

KATA case interiors are constructed of the unique bright Yelloop material. The Yelloop fabric enables dividers attachment and provides soft, anti-scratch cushioning. Small objects won't get lost on the Yelloop background even in low light. Yelloop is anti-static, a requirement for a proper Digital environment. It also helps in that Yelloop will not collect dirt as easily as other fabric linings. The Yelloop allows you to see if a harmful substance such as mud or grease gets inside your bag so you do not put your gear on it. In addition, Yelloop nicely and neatly frames your equipment when it is in your KATA case.

## Palms-1; Palms-2

Palms are a functional breakthrough in the design of soft, reinforced cases. They are available in two sizes to permit the carrying of a large variety of accessories and sensitive equipment primarily used for lighting kits: Lights and power supply in the main compartment, 4 stands in the side pockets.

Their smooth and low outside profile facilitates storage and shipping. A reinforced plate forms the base, on which are mounted the two halves of the case, each shaped like the palm of a hand.

Based on the architectural principle of the arch, the Palms provide the equipment with complete protection.

An aluminum pole handle allows for balanced carrying even when the center of gravity changes.

The cases are supplied with the Insertrolley and APSS or NSS shoulder straps can be added (see page 27).

The interiors can be customized with Modi-Vers (see page 27).

Weight	7.3 lbs		3.1 kg	

# Maze-1; Maze-2; Maze-3; Maze-4

The Maze cases are thickly padded and reinforced with Polypropylene panels to protect delicate equipment like lighting kits. Under their lids you will find zip pockets just right for flat gels and similar accessories. The interiors of the cases can be customized with the Modi-Vers divider system, and all four models are Insertrolley compatible.

(For Maze-1&2 photo configuration see page 21)

The shoulder strap of the Maze-3 helps you carry it golf bag style.

The Maze-4's construction also includes plastic panels and aluminum staves. This case is sold with the Insertrolley included, and APSS or NSS shoulder straps can be added (see page 27).

# Hexabag-1; Hexabag-2

The sturdy, protective Hexabag unfurls to reveal six deep cylindrical pockets for packing and organizing light stands, gel rolls, microphone stands or other long accessories.

Its innovative design makes it possible to retrieve items by simply opening the padded lid. Hexabag handles have comfortable, extra-long handgrips that provide ideal balance for carrying loads of varying weight distribution.

The shoulder strap helps you carry it golf bag style.

## ADB-2 (Sub Bag-2)

KATA's revolutionary design for the 100 year old Duffel Bag. The ADB-2 (Advanced Duffel Bag) is the perfect solution for carrying whatever is needed for field production. Grasp your stuff, throw it in the bag... and go! The innovative diagonal zipper facilitates quick opening and closing while creating a 180° approach to the interior. The 2 Delrin-rod reinforced arcs maintain the shape of the ADB-2. The bottom and sides are padded and reinforced. Four roomy external pockets will carry more items.

Name: ADB-2 Order Code: KT VE-180-2

ADB-2	External Max. Size		Internal Main Compartment	
	Length	25.6"	65 cm	26"
Width	12.2"	31 cm	11.8"	30 cm
Height	10.2"	26 cm	9.8"	25 cm
Weight	2.4 lbs		1.1 kg	

## Nana-10

KATA's Nana-10 is a well-padded ergonomic shoulder case designed to carry a variety of delicate equipment and accessories. Large exterior pockets provide ample storage solutions. The Modi-Vers system is included and enables you to custom-fit the interior. Nana-10 can also function as a digital camera case (see page 21)

Name: Nana-10 Order Code: KT VE-301-10

Nana-10	External Max. Size		Internal Main Compartment	
	Length	17.7"	45 cm	12.6"
Width	11.0"	28 cm	8.3"	21 cm
Height	9.1"	23 cm	7.9"	20 cm
Weight	4.0 lbs		1.8 kg	

## Banana-1;2;3

The Banana is a roomy, heavy-duty production case built to hold lots of equipment, large and small. Its ergonomic, contoured shape provides greater comfort when carrying heavy loads by bringing the center of gravity closer to the body. The Modi-Vers system is included to customize your contents. All Bananas are Insertrolley compatible. The Bananas can also function as camera cases (see page 21)

Name: Banana-1 Order Code: KT VE-301-1

Banana-1	External Max. Size		Internal Main Compartment	
	Length	19.7"	50 cm	17.7"
Width	13.0"	33 cm	8.7"	22 cm
Height	11.4"	29 cm	10.6"	27 cm
Weight	6 lbs		2.7 kg	

Name: Banana-2 Order Code: KT VE-301-2

Banana-2	External Max. Size		Internal Main Compartment	
	Length	22.8"	58 cm	21.7"
Width	12.6"	32 cm	11"	28 cm
Height	12.2"	31 cm	10.6"	27 cm
Weight	7.3 lbs		3.3 kg	

Name: Banana-3 Order Code: KT VE-301-3

Banana-3	External Max. Size		Internal Main Compartment	
	Length	24.8"	63 cm	23.6"
Width	12.6"	32 cm	11"	28 cm
Height	13.4"	34 cm	11.8"	30 cm
Weight	8.8 lbs		4 kg	

## Insertrolley

The simple yet ingenious Insertrolley System can be used with many Kata cases. It allows you to either use the trolley separately or with more than one case. Simply slide the trolley through the "sleeve" on the cases for secure and easy mobility. You can detach the trolley when you want to store it and easily replace it if damaged.

Patented extendable wheel system helps to better stabilize larger cases.

Name: Insertrolley Order Code: KT VG-DTS

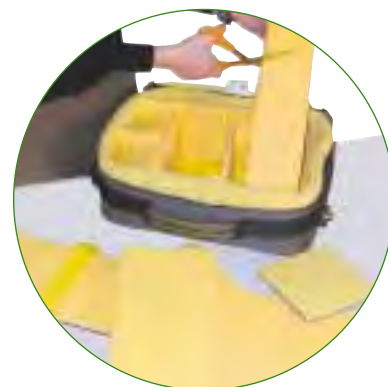

Insertrolley	Max. Size Folded		Max. Size Open	
Length	11.8"	30 cm	17.3"	44 cm
Width	3.9"	10 cm	14.2"	36 cm
Height	18.9"	48 cm	41.3"	105 cm
Weight	4 lbs		1.8 kg	

## Modi-Vers Kit-10;20

With the Modular Versatile Divider System you can create compartments inside the case to meet your exact requirements. The dividers can be cut with scissors to any desired size. You can then attach the newly cut divider either to another divider or the walls of the bag with special Hook & Loop connectors.

KATA's Modi-Vers Kits match the bright "Yelloop" interior of our cases and is available in two different sizes: Modi-Vers Kit 10 is 10cm/4" wide; Modi-Vers Kit 20 is 20cm/8" wide; both kits are 1m/yard long.

Name: Modi-Vers Kit 10 Order Code: VG-MDK-10 Name: Modi-Vers Kit 20 Order Code: VG-MDK-20

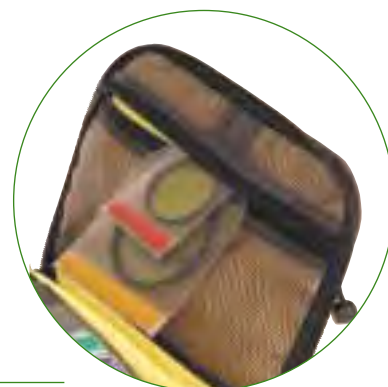

## Filter Sleeve-43;62;82

The Filter Sleeves are flat translucent pouches designed to hold round filters. They come in three sizes:

Up to - 43mm, Up to - 62mm, Up to - 82mm

Many KATA cases come with a Filter Sleeve connector, which is a designated strap-connector that allows you to secure as many KATA Filter Sleeves as necessary.

Name: Filter Sleeve 43 Order Code: VG-FL-43 Name: Filter Sleeve 62 Order Code: VG-FL-62 Name: Filter Sleeve 82 Order Code: VG-FL-82

## APSS-DH; NSS-DH

APSS (Advanced Padded Shoulder Strap), KATA's first Patented Shoulder strap is constructed from 5 layers, thermo molded to the desired shape and softness. The special dot fabric stabilizes the strap on the shoulder.

The Patented NSS (Non-Slip Shoulder strap) is shaped by injecting an especially composed thermal rubber on the strap mold.

On one shoulder or across the chest, the double-sided APSS & NSS have a unique curved shape that prevents them from digging into the wearer's neck while offering optimal weight distribution.

The shoulder straps come with 2 snap-hooks, which can easily be connected to any case.

APSS Advanced Padded Shoulder Strap (Patented)

NSS Non-Slip Shoulder strap (Patented)

Name: APSS-DH Order Code: KT VG-602-DH Name: NSS-DH Order Code: KT VG-603-4-DH

APSS-DH	Max. Size	
Length	63"	160 cm

NSS-DH	Max. Size	
Length	57"	145 cm

# Video Configuration

KATA is well known for its innovative design of a wide range of protective carrying solutions for professional video, broadcast, lighting and sound. The next 2 pages contain some of the possible digital video configurations of our cases. Additional information and more products are shown in detail in the full video catalog and on [www.kata-bags.com](http://www.kata-bags.com).

## C-56 Camera Case; C-58 Camera Case

Cases for a variety of hand held camcorders like the canon Eluras, Opturas & ZRs, Sony PC120 and similar.

C-56 Order Code: KT C-56  
C-58 Order Code: KT C-58  
See page 9

## CCC-101; CCC-103

**CCC-101** Fits a variety of High-8 & Mini DV/ DV camcorders, Up to Canon GL-2 / XM-2.  
**CCC-103** Compact case for DV cameras such as the Sony PD170, PDX10, Panasonic DVX100A, JVC DV300, and similar.

CCC-101 Order Code:  
KT VA-101  
CCC-103 Order Code:  
KT VA-103  
See page 20

## Exo-11

Fits a variety of High-8 & Mini DV/DV camcorders. Up to Sony PDX-10 and Canon GL-2 / XM-2. With lower compartment for charger, batteries, and additional tapes.

Exo-11 Order Code:  
KT VA-1111  
See page 20

## W-92 Waist Pack

Waist Pack for a variety of High-8 & Mini DV / DV camcorders, Up to Canon GL-2 / XM-2.

W-92 Order Code:  
KT W-92  
See page 14

## Egg-2001; Egg-2002

Maximum protection for pocket Digital Video cameras, Like: Canon Eluras, JVC GR-DV3U and Sony PC120.

Egg-2001 Order Code:  
KT VA-2001  
Egg-2002 Order Code:  
KT VA-2002  
See page 11

## Shell-03

Ultra protection for DV cameras such as the Sony PD170, PDX10, Panasonic DVX100A, JVC DV300, Canon GL-2/XM-2 and similar.

Shell-03 Order Code:  
KT VA-2003  
See page 20

## Exo-33

Multipurpose case for DV production field work. Fits Canon XL-1s or smaller camcorders like the Sony PD-170, Panasonic DVX100A and JVC DV300 with many accessories.

Exo-33 Order Code: KT VA-3333  
See page 20

### R-102 Rucksack

Compact Rucksack for DV / Mini DV camcorders like Panasonic DVX100A, Canon GL-2 / XM-2 and similar.

R-102 Order Code:  
KT R-102

See page 15

### Panda

The ideal backpack for DV field production. Can easily carry DV cameras like the Sony PD170, Panasonic DVX100A, JVC DV300 or Canon GL-2 / XM-2 + Laptop + Accessories + Personal effects.

Panda Order Code:KT VE-401  
See page 16

### S-312 Sling

Sling for pocket Digital Video cameras, like: Canon Eluras, JVC GR-DV3U, Sony PC120, and similar.

S-312 Order Code:KT S-312  
See page 12

### T-212 Torso Pack

Torso Pack to fit Hi-8 and Mini-DV camcorders from Handycams up to the larger Sony TRV series.

T-212 Order Code:KT T-212  
See page 12

### CRC-18

CRC-18 fits Mini-DV and Hi-8 camcorders.

CRC-18 Order Code:  
KT VA-801-18

### CRC-13

CRC-13 fits the Canon GL-2, Sony PDX-10, and similar camera models.

CRC-13 Order Code:  
KT VA-801-13  
See page 17

### CRC-14

CRC-14 is tailored to fit the Sony PD-170, JVC DV300, Panasonic DVX100A and similar.

CRC-14 Order Code:  
KT VA-801-14  
See page 17

### CRC-11

CRC-11 is tailored to fit the Canon XL-1s standard configuration.

CRC-11 Order Code:  
KT VA-801-11
