Video and Photo Lines Add-on 2006

English Addition

Protective
Carrying
Solutions

KATA designs, develops, and manufactures quality, state-of-the-art protection solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fits the case, the case must also fit the user!

In 1983, two friends, members of an elite military unit, began exchanging ideas about how backpacks and military equipment cases could be made more modular and ergonomic. Based on their own field experience, they went on to design a line of combat-ready gear. They named their company KATA. In 2005 KATA joined the Vitec Group and under the Photographic Division the company has been expanding and flourishing. **For many years KATA has been creating high-end products for professionals around the world.** KATA Design HQ and part of the manufacturing facilities are based in Jerusalem, Israel.

KATA established its reputation by outfitting **Protection and Security Special Forces** with auxiliary cases, utility & protective vests and backpacks. Tough, durable, yet remarkably lightweight, KATA products are constructed to withstand rough treatment and harsh conditions over long periods.

For the **Professional Video Industry** KATA has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported worldwide by a network of dealers and distributors. In over 40 countries, we are there to support you wherever your work may take you.

Five Year Warranty

KATA warrants each product to be free of defects in material and workmanship for a period of 5 years from the date of purchase.

We are able to provide you with this warranty because: Each of our products is meticulously hand crafted for durability: Internal bindings cover the fabric-ends and outside seams are double folded to eliminate unraveling. Carrying handles are sewn from the bottom of the bag, for the greatest possible strength. Our silent YKK zippers are double seamed and usually sewn on the inside of the fabric to hold them fast.

In 2004, KATA launched the Global Digital Collection (GDC) for the **Professional Digital Photographer and Videographer**. The collection includes carrying solutions specifically designed for delicate digital equipment incorporating KATA's latest development - the unique TST (Thermo-Shield-Technology).

KATA has provided an outsourcing service to **Hi-tech Industries** that manufacture sensitive equipment for field operation. KATA is involved from the research to the development and design stage through production. A prominent example of such an enterprise is the KATA - MANFROTTO collaboration which is responsible for the entire line of Manfrotto bags worldwide.

We use the highest quality materials:

- DuPont® Cordura®;
- Water-repellent and Polyurethane coated Super Nylon®;
- High tenacity Polypropylene and Nylon webbing;
- Cross-linked Polyethylene-foams;
- Silent action Auto-Recover YKK®zippers;
- ITW® and Duraflex® buckles.

ISO-9000

KATA complies with the rigorous requirements of ISO-9000 for quality management systems. The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 90 countries.

THERMO SHIELD TECHNOLOGY

TST (Thermo-Shield-Technology) is a state of the art solution that gives the perfect protection for the digital equipment while creating an extremely light product. The outer surface **1** of the TST is thermo-formed in a protective “rib-shape” construction (Patent Pend.). It is made of Super Nylon[®] - a Mil-Std, double cord, water and dust proof, high tenacity and abrasion-resistance fabric **2**.

Underneath, a cross-linked, closed cell PE+EVA shield **3** is impact and shock protective while providing comprehensive insulation against cold, heat and moisture. The internal padding **4** provides the necessary cushioning and vibration reduction. The lining is KATA's unique Yelloop material **5** which is fabricated especially for the anti-scratch and anti-static requirements while allowing divider attachment for internal partitioning.

SB-902; SB-904; SB-907 Shoulder Bag

The SB Reporter Shoulder Bags easily carry and protect a wide range of Digital Photo and Video Equipment. The unique design allows each individual the freedom of arranging the perfect carrying solution for any desired working mode. With the internal padding kits, dividers, and removable reinforced bottom flooring (provided with the bags), you can choose whether to use some, all or none, thus defining the rigidity and flexibility levels of the case (if additional division is necessary Kata's Modi-Vers Kits are available). A special top securing strap will allow for volume reduction when the bag is not packed to the maximum. Semi rigid TST front pockets and large external side pockets ensure ample storage solutions for any additional professional or personal equipment, and the larger SB-907 even features a designated laptop case which can also be used individually.

A great new triple opening system has been engineered to allow for any working eventuality:

1. The main double buckle closing flap allows full access to all the equipment at once and is most convenient when loading and unloading the bag.
2. Quick "One Pull" top zippered flap allows for quick access to the working camera at all times.
3. Two side zipper openings enable the quick draw of lenses, flash unit or other accessories, without having to open the bag.

Carrying options include reinforced rigid handle, shoulder strap and Insertrolley option. The SB-902 & SB-904 are padded on the side that nestles against your body and both feature a detachable waist belt for additional support that can also be used to attach the bag to the Insertrolley. The zippers and openings are all rain protected and an Elements Cover for the entire case is supplied for extreme climatic conditions.

SB-902 fits 1-2 D/SLR bodies + 2-3 lenses + accessories, or Mini DV camcorders such as the Sony HC1.

The SB-904 fits 2 D/SLR bodies + 4-6 lenses (up to 300mm) + accessories, or small DV camcorder such as the Panasonic DVC30, Canon GL2/XM2 and similar.

The SB-907 fits 2-3 D/SLR bodies + 6-8 lenses (up to 300mm) + accessories + laptop, or DV camcorder up to the Sony FX1, Panasonic HVX200 and JVC DV300 and similar.

WS-604; WS-606

Waist-Shoulder Bag

Kata's Waist Shoulder Bags are sturdy and TST safeguarded cases that provide rugged protection for the Digital professional photographer / videographer on the go or when working in harsh conditions.

Ergonomically designed to allow you to "shoot from the hip" without taking the case off your shoulder: Contoured shape for a closer to the body center of gravity; 2 DP Buckles ensure correct Case-Strap-Carrier angle; ergonomic Non-Slip Shoulder strap; opening away from the body by a quick release buckle; 3D hip pad with a removable concealed hip belt for additional support and weight distribution can also be used as a connection point to Kata's Insertrolley.

The cases are supplied with Kata Modi-Vers dividers which allow the freedom of setting up the large main compartment to suit each user's individual needs. 3 large pockets, 4 flat pockets and the tying loops, provide additional storage solutions. If additional division is necessary Kata's Modi-Vers Kits are available.

WS-604 will fit 2 digital SLR bodies, 2-4 lenses + accessories, or a Mini-DV camcorder such as Canon GL2/XM2, Panasonic DVC30, Sony PDX10 and similar.

WS-606 will fit 2-4 Digital /SLR bodies, 6-10 lenses + accessories, or DV cam up to the Sony FX1, Panasonic HVX200 and JVC DV300 and similar.

OC-82; OC-84 Organizer Case

The OC bags are designed to withstand hard use in any environment. Kata's TST technology on the front of the bag and the honeycomb reinforced circumference provide ultimate protection for the gear within.

The OC bag has two full sized compartments. The first is a shallow compartment for laptop or paperwork. The second deep compartment is for the photographic equipment. Both compartments will allow for a custom fit to meet your exact requirements. The cases are supplied with ample modular dividers and if additional division is necessary Kata's Modivers Kits are included.

A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions. Both cases come with strong padded handles, a BSS shoulder strap and are Insertrolley compatible.

The OC-84 is supplied with a laptop case that can be used individually, features two carrying handles for top and side carrying and also a connection system for tripod or lighting stands.

OC-82 will fit 1-2 D/SLR bodies 3-4 lenses & accessories.

Can also be used for mattbox + filters, or as a Lighting Bag for a small lighting kit.

OC-84 will fit 2-4 D/SLR bodies with 6-8 lenses & accessories, or a Medium Format Kit.

Can also be used as a Lighting Bag for a small lighting kit.

T-212; T-214

Torso-Pack

KATA's Torso Packs is uniquely designed to keep your D / SLR or Camcorder in quick-draw position, while TST protected. They enable frontal carrying and quick draw without weighing on your neck. The Torso Packs are the central element of KATA's EPH System. They can be used on their own or attached to the W-92 Waist Pack as well as one of the backpacks. The T-214 fits up to a large D/SLR with lens attached or a DV Camcorder up to a Panasonic DVX100 & similar.

T-212 fits a medium D/SLR with lens attached or a Mini DV Camcorder up to the Sony HC-1, Canon GL2/XM2 & similar.

Front to Back

Front Position

The unique design allows you to carry the bag up front or on your back, and change the position even while on the go. The lid is secured by a wide "hook & loop" fastener and a side release buckle, and one pull allows for a quick full opening of the parallel zipper set, this means that at all times you have frontal top access to your camera. The large main compartment is divided in a way that allows you to store your camera in top grip position while below the body you can store and protect additional lenses or accessories. Additional external pockets will hold your personal effects.

CC-190; CC-191; CC-193; CC-195 Compact Cases

KATA's CC Compact Cases feature TST rugged protection to provide the ultimate safeguard for the delicate equipment within. A spacious main compartment with modular internal division will accommodate camera and accessory set-up while the full length external padded pocket will provide additional storage space. If additional division is necessary, KATA's Modi-Vers Kits can be purchased. The lid is secured by a wide "hook & loop" fastener and a side release buckle. One pull allows for a quick full opening of the parallel zipper set. BSS Shoulder Strap is included as well as a padded Mesh-Grip handle. Except for the CC-190 all the cases are Insertrolley compatible. The CC-195 features a reinforced modular bottom panel and a unique viewfinder and microphone circumferential protection in the form of a removable Reinforced Aluminum Frame (RAF).

CC-190 fits small Mini-DV camcorders up to Sony HC-1 & similar or D/SLR w/large pro lens.

CC-191 fits up to a Canon GL2/XM-2, Panasonic DVC30 & similar or D/SLR w/large pro lens.

CC-193 fits up to a Sony Z1, Panasonic HVX200 & similar or D/SLR w/large pro lens.

CC-195 fits up to JVC GY-HD100U, Canon XL HD1 & similar.

HB-205; HB-207

Hiker Backpack

KATA's HB Hiker Backpacks feature a level of protection you haven't seen before; KATA's TST protection safeguards the camera compartment and the bottom of the case while keeping it light.

The case is set up with modular dividers, and if additional division is necessary, KATA's Modi-Vers Kits can be purchased.

Two soft TST open pockets for water bottles, small tripod etc., and an assortment of pockets all work together to provide the ultimate carrying and protecting solution for outdoor photographers and videographers.

A tripod can be carried while attached to the backpack by using KATA's included tripod holder either on the front or the side of the backpack.

The advanced harness system is designed to allow for ultimate adjustment of all features; shoulder straps, 6 point adjustable waist belt, and lumbar pad, ensuring the perfect ergonomic fit for each individual carrier. When not in use, the harness can be neatly folded out of the way to allow for easy storage and to allow the addition of KATA's Insertrolley. In the HB-207 there is also a separately accessed top compartment which will hold a still camera with lens installed for quick removal, or a variety of accessories, and a large rear laptop compartment.

HB-205 fits 2-3 D/SLR bodies with up to 8 lenses (up to 400 mm) or a DV camcorder up to the Sony FX1, Panasonic DVX100 and similar + accessories.

HB-207 fits 2-3 Digital / SLR bodies with up to 8 lenses (up to 400 mm f 2.8) or a DV camcorder such as the Sony HDR Z1, Panasonic HVX200, JVC GY-DV300 and similar, while a rear compartment will hold up to a 17" laptop.

HD is slowly but surely changing the face of the Video industry as we know it. KATA's new HD Protective sub-line is designed specifically for this high-end market of sensitive and expensive HD equipment. Introducing overall HD protection solutions for both daily routine and extreme field production:

HD-CC-3; HD ultra protective camcorder case.

RC-HD-3; HD Rain Cover featuring absolute protection with seam sealing technology.

CG-11, CG-12 and CG-3; Camera Gloves for various HD models.

Momo 4; HD field monitor case for 8 and 9 LCD monitors.

HD-CC-3

The HD-CC-3 or Maxi HD Camera Case features ultra peripheral TST protection for the delicate and expensive equipment with an emphasis on the viewfinder and microphone area. An extra long external padded zippered pocket located on the right side of the bag can be divided into 2 or 3 separate compartments to meet your exact accessory needs, while the adjustable tripod plate pocket can be situated wherever most convenient. The case includes shock buffers and Modi-Vers dividers that allow the user to configure the main compartment according to personal preferences. 4 more designated pockets will store tools and personal effects while providing quick and easy access.

CG-9; CG-11; CG-12; CG-13 **NEW**

KATA's Camera Gloves have been custom tailored to fit your camera like a "glove" snugly with no loose ends, offering ultimate protection from dust, extreme elements, dirt, bumps, and scratches.

Intelligent product design includes:

- Quick opening to access tape door, control buttons and panels.
- Adjustable battery wrap to accommodate all battery sizes, and allow the use of wireless systems.
- Silent action Auto-Recover zippers.
- Fashionable design which keeps in line with today's camera image.

Please refer to our camera charts to match your camcorder with the correct case. Find our most updated charts at www.kata-bags.com

RC-HD-3

The KATA Rain Cover is fabricated from waterproof material, crystal clear TPU panels on the camera's control side, water tight zippers, and seam seal technology. The cover slips quickly over a camera to protect it from sudden showers and is secured by a quick pull of drawstrings.

A stiff polypropylene hood shields various lens sizes and types, while the viewfinder is protected by a flexible sleeve with a strong elastic cuff. Provided with mattbox extension which can easily be connected to the lens hood. The Rain Cover successfully protects equipment during Weather Laboratory testing in severe weather conditions. It is designed for efficiency down to the smallest detail.

Name: RC-HD-3 Order Code: KT VA-801-3

Weight: 0.99 lbs 0.45 kg

Stiff polypropylene hood can be adjusted to fit a variety of lens sizes.

Flap hood opens for quick media change while providing protection against the rain or the dust.

Top access opening features water tight zipper with overlapping hook and loop closer. 4 zipper heads allow for easy access at any given point!

Vertical Filter Pouch

Vertical Filter Pouch, holds Panavision size filters. Name: VG-024 Order Code: KT VG-024

APSS-DH; APSS-DCC (Improved)

The APSS (Advanced Padded Shoulder Strap) is KATA's first Patented Shoulder strap. It is constructed from 6 layers, thermo molded to the desired shape and softness. The special dot fabric stabilizes the strap on the shoulder. On one shoulder or across the chest, the double-sided APSS has a unique curved shape that prevents them from digging into the wearer's neck while offering optimal weight distribution.

APSS- DH comes with 2 snap-hooks, which can easily be connected to any case.

APSS-DCC comes with Double Camera Clips (DCC) to carry camcorders.

PALMS-1; 2; 3

PALMS are a functional breakthrough in the design of soft, reinforced cases. They are available in three sizes to permit the carrying of a large variety of accessories and sensitive equipment primarily used for lighting kits: Lights and power supply in the main compartment, 4 stands in the side pockets. Their smooth and low outside profile facilitates storage and shipping. A reinforced plate forms the base, on which are mounted the two halves of the case, each shaped like the palm of a hand. Based on the architectural principle of the arch, the PALMS provide the equipment with complete protection. An aluminum pole handle allows for balanced carrying even when the center of gravity changes.

The PALMS are supplied with the Insertrolley and APSS or NSS shoulder straps can be added to the PALMS-1/2. The interiors can be customized with Modi-Vers.
