

A Simple Case of Better Design

NEW ARRIVALS 2005

Addition to 2004 KATA Video Catalog

PROTECTIVE CARRYING SOLUTIONS

KATA designs, develops, and manufactures quality, state-of-the-art protection solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fit the case, the case must also fit the user!

In 1983, two friends, members of an elite military unit, began exchanging ideas about how backpacks and military equipment cases could be made more modular and ergonomic. Based on their own field experience, they went on to design a line of combat-ready gear. They named their company KATA.

For the past twenty years KATA has been creating high-end products for professionals around the world.

KATA products are developed and manufactured in Jerusalem – Israel.

KATA established its reputation by outfitting **Military and Security Special Forces** with auxiliary cases, utility & protective vests and backpacks. Tough, durable, yet remarkably lightweight, KATA products are constructed to withstand rough treatment and harsh conditions over long periods.

For the **Professional Video Industry** KATA has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported worldwide by a network of dealers and distributors. In over 40 countries, we are there to support you wherever your work may take you.

Five Year Warranty

KATA warrants each product to be free of defects in material and workmanship for a period of 5 years from the date of purchase.

We are able to provide you with this warranty because:

Each of our products is meticulously hand crafted for durability:

Internal bindings cover the fabric-ends and outside seams are double folded to eliminate unraveling. Carrying handles are sewn from the bottom of the bag, for the greatest possible strength. Our silent YKK zippers are double seamed and usually sewn on the inside of the fabric to hold them fast.

In 2004, KATA launched the Global Digital Collection (GDC) for the **Professional Digital Photographer and Videographer**. The collection includes carrying solutions specifically designed for delicate digital equipment incorporating KATA's latest development-the unique TST (Thermo-Shield-Technology).

KATA has provided an out sourcing service to **Hi-tech Industries** that manufacture sensitive equipment for field operation. KATA is involved from the research to the development and design stage until production.

We use the highest quality materials:

- DuPont® Cordura®;
- Water-repellent and Polyurethane coated Super Nylon®;
- High tenacity Polypropylene and Nylon webbing;
- Cross-linked Polyethylene-foams;
- Silent action Auto-Recover YKK® zippers;
- ITW® and Duraflex® buckles;

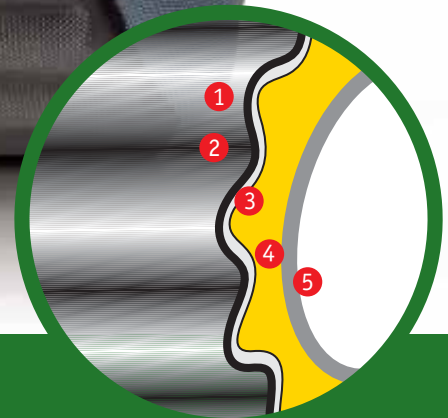

ISO-9000

KATA complies with the rigorous requirements of ISO-9000 for quality management system.

The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 90 countries.

THERMO SHIELD TECHNOLOGY

TST (Thermo-Shield-Technology) is a state of the art solution that gives the perfect protection for the digital equipment while creating an extremely light product. The outer surface **1** of the TST is thermo-formed in a protective “rib-shape” construction (Patent Pend.). It is made of Super Nylon[®] - a Mil-Std, double cord, water and dust proof, high tenacity and abrasion-resistance fabric **2**. Underneath, a cross-linked, closed cell PE+EVA shield **3** is impact and shock protective while providing comprehensive insulation against cold, heat and moisture. The internal padding **4** provides the necessary cushioning and vibration reduction. The lining is KATA’s unique Yelloop material **5** which is fabricated especially for the anti-scratch and anti-static requirements while allowing divider attachment for internal partitioning.

PROFESSIONAL HD CAMCORDER CASES

HD is slowly but surly changing the face of the Video industry as we know it. KATA's new HD Protective sub-line is designed specifically for this high-end market of sensitive and expensive HD equipment.

Introducing overall HD protection solutions for both daily routine and extreme field production: HD-CC-3; HD ultra protective camcorder case.

RC-HD-3; HD Rain Cover featuring absolute protection with seam sealing technology.

CG-11, CG-12 and CG-3; Camera Gloves for various HD models.

HD-CC-3

The HD-CC-3 or Maxi HD Camera Case features ultra peripheral TST protection for the delicate and expensive equipment within with an emphasis on the viewfinder and microphone area.

An extra long external padded zippered pocket located on the right side of the bag can be divided into 2 or 3 separate compartments to meet your exact accessory needs, while the adjustable tripod plate pocket can be situated wherever most convenient.

The case includes shock buffers and Modi-Vers dividers that allow the user to configure the main compartment according to personal preferences.

4 more designated pockets will store tools and personal effects while providing quick and easy access.

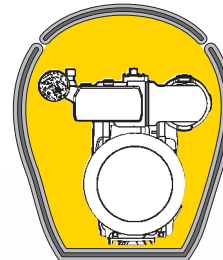

YELLOW LOOP

Yellow "Loop" interior allows easy connection of the 2 modular Versatile Dividers and 2 shock buffers anywhere in the case

Full large opening for quick and easy access

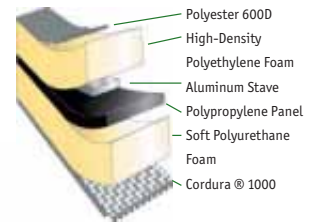

High-capacity Thermo Shield pockets for videocassettes or batteries

Curved Thermo Shield reinforces top flap to protect viewfinder and on-camera mic.

Ergonomically shaped curved contour and six layers of protection safeguard the camera

Six Layers of Protection
We surround your equipment with the most protection possible, while still maintaining a lightweight design.

High back end to fit camera with battery and wireless installed

4 external flat pockets for digital camera setup cards and personal effects

INTERLOCKING HANDLES

TOBLERONE Shock Absorbers

CG-3; CG-11; CG-12

Name: CG-3 Order Code: KT VA-601-3 Weight: 1.5 lbs 0.7 kg

Name: CG-11 Order Code: KT VA-601-11 Weight: 1.5 lbs 0.7 kg

Name: CG-12 Order Code: KT VA-601-12 Weight: 1.5 lbs 0.7 kg

KATA's Camera Gloves have been custom tailored to fit your camera like a "glove" snugly with no loose ends, offering ultimate protection from dust, extreme elements, dirt, bumps, and scratches.

Intelligent product design includes:

Quick opening to access tape door, control buttons and panels.

Adjustable battery wrap to accommodate all battery sizes, and allow the use of wireless systems.

Silent action Auto-Recover zippers.

Fashionable design which keeps in line with today's camera image.

RC-HD-3

Name: RC-HD-3 Order Code: VA-801-3 Weight: 0.99 lbs 0.45 kg

The KATA Rain Cover is fabricated from waterproof material, crystal clear TPU panels on the camera's control side, water tight zippers, and seam seal technology.

The covers slips quickly over a camera to protect it from sudden showers and is secured by a quick pull of drawstrings.

A stiff polypropylene hood shields various lens sizes and types, while the viewfinder is protected by a flexible sleeve with a strong elastic cuff. Provided with mattbox extension which can easily be connected to the lens hood.

The Rain Cover successfully protected equipment during Weather Laboratory testing in severe weather conditions.

It is designed for efficiency down to the smallest detail.

Two modular removable sleeves supplied with RC-1 and RC-10 enable the extraction of shoulder strap, wireless antenna, viewfinder etc.

SPS* Mini-light Protective Sleeve Heat resistant modular hood protects your mini-light when working in the rain. (*Sold separately)

Stiff polypropylene hood can be adjusted to fit a variety of lens sizes.

Stiff polypropylene hood can be adjusted to fit a variety of lens sizes (see detail*)

Clear vinyl panel on camera control side with full access from bottom

Roomy bottom opening provides easy access and allows hands to move comfortably under the Rain Cover

RC-5" VFP** (Philips / Thomson)
RC-5" VFS*** (Sony)
protect the viewfinder mounted on the camera. Fit with the RC-1 and the RC-10. (*Sold separately)

Flexible sleeves with strong elastic cuffs protect viewfinder and mic

The Ultimate in HDV / DV Protection

High Definition is expanding into the DV field bringing with it a range of new technologies and professional accessories.

Following extensive research KATA proudly introduce the following solutions which not only carry and protect but also offer any number of modular working options for this new equipment.

All these bags will also fit the existing range of DV camcorders (see models below).

CC-193 Compact Camcorder Case

MC-61 HDV field production kit.

HB-207 Hiker backpack

CRC-15 Compact Rain Cover

CC-191; CC-193

The CC- 191 and the larger CC- 193 are compact, TST padded cases designed to hold a range of small digital camcorders:

CC-191 fits Canon GL2/XM2, Panasonic DVC30, Sony PDX10 while the larger CC-193 will hold the new Sony HDV Z1 and FX1, PD170, Panasonic DVX100A etc.

Additional accessories will fit in the remaining space, the additional long compartment or the full length external pocket.

Internal dividers are included and if needed a Modi-Vers Kit is available.

The CC-191 and 193 lid is secured by a wide "hook & loop" fastener and a side release buckle. One pull allows for a quick full opening of the parallel zipper set. BSS Shoulder Strap is included as well as a padded Mesh-Grip handle.

MC-61

DP

FITS DIGITAL PHOTO

The Multi-Case, MC-61, is the perfect companion for the genuine field digital videographer and photographer .

It combines all you'll need in one case:

- The possibility to carry camcorders such as Sony HDR Z1, FX1, PD-170, Panasonic DVX100A, JVC GY-DV300, Canon GL-2 and similar sized models combined with a laptop, professional and personal accessories - maintaining each piece of equipment and gear in its own designated compartment;
- A level of protection you haven't met before, which is supplied by the TST and the heavily padded walls of the bag.
- Multiple, ergonomically perfected, carrying possibilities – The B shaped shoulder strap, the Click handle and the Insertrolley option.
- A stylish up-to-date design, materials, colors and shape.

Name: MC-61 Order Code: KT MC-61

MC-61	External Max. Size		Internal Main Compartment	
Length	20"	51 cm	19.3"	49 cm
Width	12.2"	31 cm	8.3"	21 cm
Height	12.6"	32 cm	10.6"	27 cm
Weight	5.5 lbs		2.5 kg	

DV FIELD PRODUCTION KIT:

Tripod holding recess and straps

Front pocket for personal effects like PDA, wallet, cell-phone etc.

Two side doors opens a long padded back compartment where you can store a small tripod or many accessories organized inside the two included drawers

Service compartment can be divided and organized to fit all extra gear like batteries, charger, cables, lenses and many more

Perfect fit with and without matt box

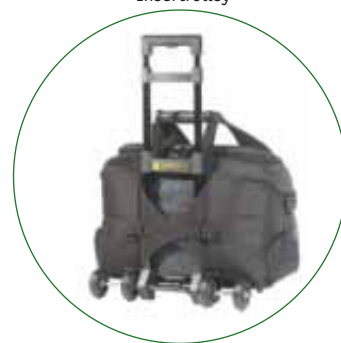

Fits all types of laptops with mouse, cables etc.

6 openings allow for separate access to camera, laptop and accessories

2 sets of Modi-Vers to allow for partitioning according to your preference

Pockets for flat items like filters, PDA and such

MC-61 with Insertrolley

PANASONIC DVX100A

SONY PD170

CANON GL-2

SONY PDX-10

HB-207

KATA's HB-207 Hiker Backpack features a level of protection you haven't seen before; KATA's TST protection safeguards the camera compartment and the bottom of the case while keeping it light.

The extensive main compartment easily accommodates 2-3 a variety of DV camcorders such as the Sony HDR Z1, FX1, PD170, Panasonic DVX100A and JVC GY-DV300, while arear compartment will hold up to a 17" laptop.

The case is set up with modular dividers, and if additional division is necessary, KATA's Modi-Vers Kits can be purchased.

A separately accessed top compartment will hold a stills camera with lens installed for quick removal, or a variety of accessories.

Large rear laptop compartment, two soft TST open pockets for water bottles, small tripod etc., and an assortment of pockets all work together to provide the ultimate carrying and protecting solution for outdoor photographers.

A tripod can be carried while attached to the backpack by using KATA's included tripod holder either on the front or the side of the backpack.

The HB-207 advanced harness system is designed to allow for ultimate adjustment of all features; shoulder straps, 6 point adjustable waist belt, and lumbar pad, ensuring the perfect ergonomic fit for each individual carrier. When not in use, the harness can be neatly folded out of the way to allow for easy storage and to allow the addition of KATA's Insertrolley.

Rear laptop compartment

Name: HB-207 Order Code: KT HB-207

HB-207	External Max. Size		Internal Main Compartment	
Length	15.3"	39cm	11.8"	30 cm
Width	11.8"	30 cm	7"	18 cm

Weight	6.1 lbs		2.8 kg	

DV FIELD PRODUCTION KIT:

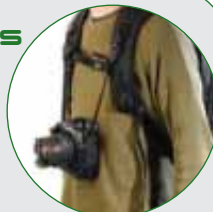

HB-207 with Insertrolley

Backpack Accessories

Camera Straps

Camera Straps are attached to the D-rings on the backpack harnesses to connect to your SLR and take the load off your neck when carrying. Can easily be turned into a regular camera strap.

Tripod Holder

KATA's TST Tripod Holder is a modular and versatile sling pouch designed to connect your tripod on the outside of the KATA backpacks.

FITS DIGITAL PHOTO

CRC-15

Name: CRC-15 Order Code: VA-801-15

Weight: 0.9 lbs 0.45 kg

CRC-15 Compact Rain Cover is uniquely designed to fit the new Sony HDV camcorders; both the FX1 and the Z1E (Z1J / Z1U). Fabricated from waterproof material the cover features a crystal clear vinyl panel which allows control monitoring and also viewing of LCD screen at any angle.

The cover slips quickly over the camcorder to protect it from sudden showers and is secured by Hook & Loop flaps and quick pull drawstrings.

The CRC-15 is engineered for efficiency down to the smallest detail; two top openings allow the extraction of shoulder strap or wireless antenna, while a removable sleeve enables a variety of microphone configurations without compromising the high protection level of the cover. A hand sleeve is provided for manual use and can also be used to seal off a tripod connection when thus used.

You can work with the LCD Monitor with the Rain Cover on

This sleeve can be attached along the bottom for ultra protection when hand held (will allow access for both hands) or on a tripod

Front and back Hook & Loop "lip seal" openings allow for the extraction of shoulder strap, mini-light or wireless antenna

Flexible sleeve to fit any external mic. Can be removed and mic can be extracted while securing the Hook & Loop around it.

Extra nylon sleeves that can be closed around and seal the lens/viewfinder/mic base for double protection

Flexible sleeves with strong elastic cuffs protect viewfinder

Clear vinyl panel on camera control side with full access from bottom

Roomy bottom opening provides easy access and allows hands to move comfortably under the Rain Cover

Please refer to our camera charts to match your camcorder with the correct case
Find our most updated charts at www.kata-bags.com

R-103

The R-103 compact rucksack is designed to hold DV camcorders such as the Sony PD-170, Panasonic DVX100A, JVC GY-DV300 and Canon GL-2 etc. Additional accessories, tapes, batteries, filters, charger, cables and personal essentials can be stored in the spacious arched lid compartment, the 2 outside pockets and the central mesh/vinyl pocket, while a rear compartment will hold a laptop (up to 15"). The special design gives quick, separate access to the camcorder, while the rest of the equipment surrounding it remains secure.

The R-103's ergonomic harness includes a unique cushioning and shock absorbing system, for optimal ventilation, weight distribution and 5-point adjustment mechanism. The R-103 includes a well-padded dividing set and 2 modular mesh pouches which allow you ultimate versatility in set up. If needed, extra Modi-Vers-Kit is available. In addition, the R-103 includes a TST tripod holder with its connecting V shape device and an upper adjustable strap. A detachable hip belt can be connected to the bottom back loops that are designated to attach the R-103 to KATA's EPH system. Full protection on the main zipper and KATA's unique cover make sure your sensitive equipment is well protected from the elements.

Name: R-103 Order Code: KT R-103

R-102	External Max. Size		Internal Main Compartment

FITS DIGITAL PHOTO

SB-904

The SB-904 Reporter Shoulder Bag easily carries and protects a small DV camcorder up to the Sony PD170, Panasonic DVX100A and JVC DV300 etc. The unique design provides the freedom of arranging the perfect carrying solution for any desired working mode; of the two padding kits in the bag you can choose whether to use one, both or none, thus defining the rigidity and flexibility levels of the case.

Two semi rigid TST front pockets and two large external side pockets ensure ample storage solutions for any additional professional or personal equipment. A great new triple opening system has been engineered to allow for any working eventuality:

1. The main double buckle closing flap allows full access to all the equipment at once and is most convenient when loading and unloading the bag.
2. Quick "One Pull" top zippered flap allows for quick access to the working camera at all times.
3. Two side zipper openings enable the quick draw of accessories, without having to open the bag.

Carrying options include reinforced rigid handle, shoulder strap and padded rear and belt loops for extra waist support when necessary (belt not included). The SB-904 zippers and openings are all rain protected and an Elements Cover for the entire case is supplied for extreme climatic conditions.

Removable padded inserts

MODI-VERS KIT-10; 20

Name: Modi-Vers Kit Soft 10 Order Code: VG-MDK-S10

Name: Modi-Vers Kit soft 20 Order Code: VG-MDK-S20

With the Modular Versatile Divider System you can create compartments inside the case to meet your exact requirements. The dividers can be cut with scissors to any desired size. You can then attach the newly cut divider either to another divider or to the walls of the bag with special Hook & Loop connectors.

KATA's Modi-Vers Kits match the bright "Yelloop" interior of our cases and is available in two different sizes: Modi-Vers Kit Soft 10 is 10cm/4" wide; Modi-Vers Kit Soft 20 is 20cm/8" wide; both kits are 50cm/20" long.

PRODUCT LISTING

This insert is an addition to the 2004 Kata Video Catalog in which all the new and improved 2005 Video products are presented. The new items are marked as such and can be located on pages N#. ALL other products can be found in the 2004 Kata Video Catalog on the pages listed herewith. Please note that since 2004 several products have been discontinued they have been listed here as these items may still be available until stock runs out.
