

KROMA TELECOM

TP6008 – 8-key Analogue User Panel

TP6008 is a 8-key user panel with 2RU and half rack. At the front panel we might find its eight crosspoint keys with double led (thru Map6000 config programme, each key can be assigned to a command. Keys work in latching or PTT mode or both), mute key with led, main volume potentiometer (audio signals are balanced), aux volume potentiometer, jack connector for headset, microphone (which is provided with the panel) and built-in speaker. Note that a dynamic mic (with its preamplifier) can be also connected.

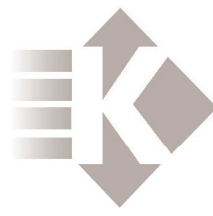

At the rear panel, we might find: Mains plug (Kroma panels are locally powered so the distance covered is longer -cable used is of three-shielded-pair type), tally I/O (activated with a 24-48v tension and can be programmed as if a key) and two 9-pin SubD connector: one for connecting to matrix, the other as an aux analogue I/O for on-air monitoring puposes (return programme signal).

KROMA TELECOM

- MICROPHONE

Type: LEM DU112 CNO ST, dynamic, unidirectional
Frequency response: 140 Hz - 12 kHz
Sensitivity: - 1.9 mV/Pa
Impedance: 500Ohm

- MICROPHONE AMPLIFIER

Output type: Balanced
Output impedance: 600 Ohm
Nominal level: + 6 dBV (start compression)
Frequency response: 20 Hz ... 10 kHz (-3 dB)
Distortion + noise (THD+N/S): - 63.5 dB @ 0 Dbv

- COMPRESSOR

Starting	5 mSeg	63.2 %
Raising	250 mSeg	63.2 %

- LOUDSPEAKER AMPLIFIER OUTPUT

Input type: Balanced
Maximum sign input before Clipping: 16.5 dBV
Input impedance: 30 Kohm
Maximum power output: 5W R.H.S.
Frequency response: 540 Hz ... 20 kHz (-3 dB)
Distortion + noise (THD+N/S): - 70 dB @ 1 W
C.M.R.R.: 70 dB (typ)

- LOUDSPEAKER

Type eliptic 5" x 3"
Impedance: 8 Ohm

- CONTROL PORT:

RS-422/19.200 bps or PDM

- GENERAL

Supply voltage: 110 V / 220 V AC \pm 10 %
Consumption: Max. 22 VA
Operating temperature: 0 \div 50 $^{\circ}$ C
Weight: 0.8 Kg
Sizes (width x Height x Depth): 220 x 88 x 160 mm
